

Policy: Quality Policy Statement

Introduction

Envolve Infrastructure Limited is a civil engineering infrastructure company specialising in construction, refurbishment, repair and maintenance of civil engineering infrastructure assets.

The management and all who work at Envolve Infrastructure Limited are committed to providing the highest possible level of service in satisfying the requirements of our clients, customers and interested parties. In order to ensure that we achieve excellence in all our activities we have implemented a formal quality management system (QMS), which satisfies the requirements of BS EN ISO 9001: 2015.

The quality management system ensures that:

- The needs and expectations of our clients and customers are fully understood;
- Appropriate resources are provided in terms of facilities, infrastructure, suitable environment, knowledge and competence to fulfil clients' and customers' needs;
- We are committed to satisfying applicable statutory and regulatory requirements and to a process of continual quality improvement; we set measurable quality improvement objectives which are re-assessed regularly;
- Progress towards the quality objectives is monitored closely so our processes can deliver their intended outputs; and
- We determine, and proportionately action and regularly review the opportunities and risks that need to be addressed so our QMS can achieve its intended results.

This will be the foundation on which we will build long-term partnerships and continuing improvements in our performance, hence enhancing the desirable effects of our QMS.

Our Quality Policy, our customer focus and the quality objectives adopted by management have been promoted throughout our company and made known to all employees. Our Quality Policy is available to our interested parties on request.

The quality policy, quality objectives and the quality management system are reviewed and updated regularly to take account of changing circumstances and client and customer requirements.

Name: Jamie Prichard

Managing Director on behalf of Envolve Infrastructure Ltd.
